01 《DOOMSDAY ESCAPE》游戏世界观设计

DOOMSDAY ESCAPE

—Virtual Urban Morphology Exploration based on
WFC Algorithm

Instructor: Meizi Li

Type: Team Work

Design Duration: Jul.2024 - Aug.2024

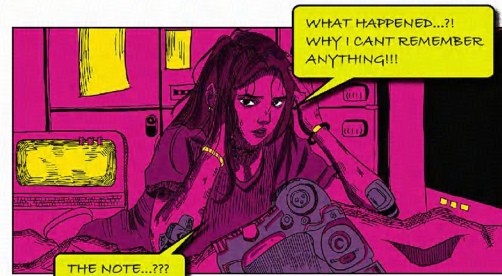

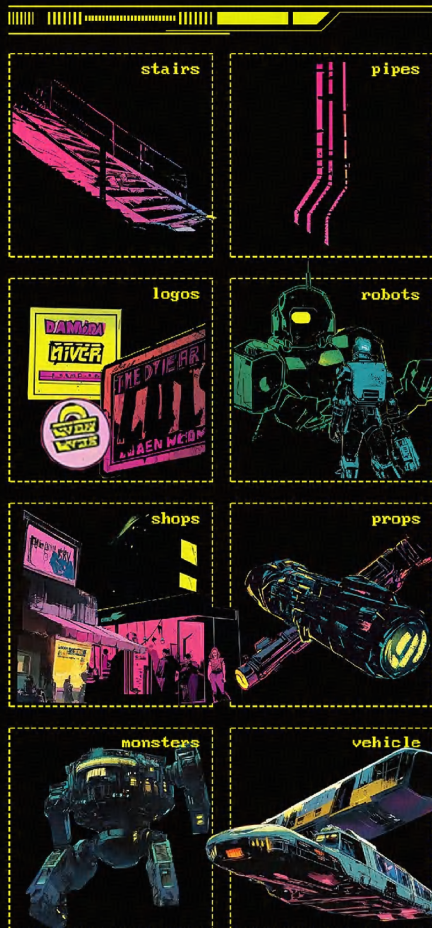

This project relies on the WFC algorithm (Wave Function Collapse), which generates wireless patterns based on local information, and builds an infinitely growing model of the game city through the design of the city modules, as well as the given slots in the 3D space and the setup of combinatorial rules between the unit segments.

The game is a vertically oriented climbing game with a cyberpunk background, in which climbing gears are exchanged by collecting gold props and interspersed with clue collection and character dialogues to complete the process from the beginning of amnesia to the final decryption.

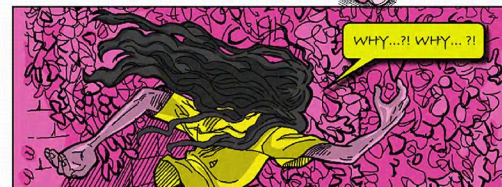

In the game, the player will take the role of a half-robot, half-human who wakes up one day and suddenly discovers that he has lost his memory and decides to embark on a journey to find the truth.

Elements

It said love and free will, and it brought back some memories, as if there was a big hand pushing me through the and controlling me and others.

I made a decision that no matter how difficult it is, I will keep fighting and searching for the truth.

INTRODUCTION

PLAYER

▶ Skill Points

- ▶ MATH (AUTOMATICALLY COMPUTE THE OPTIONAL SOLUTION)
- ▶ LADDER BUILDING
- ▶ CLIMB THE POLE

▶ Experience Points

▶ Health Points

▶ Gold Value

STORY CHAPTERS

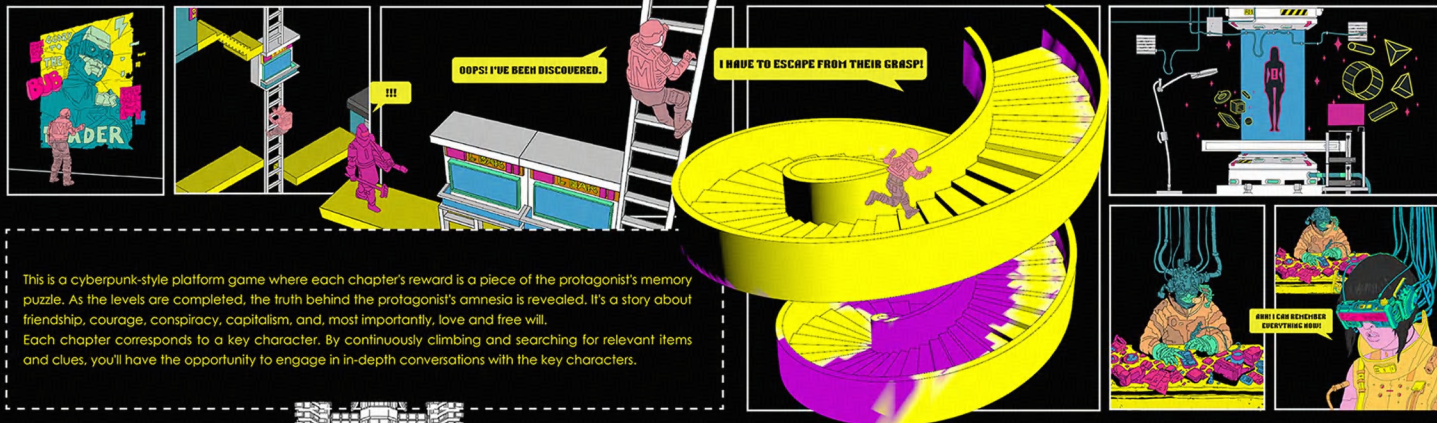

0 PRELUDE
LOSSING MEMORIES

1 ALL THAT HAS PASSED IS
BUT A PROLOGUE

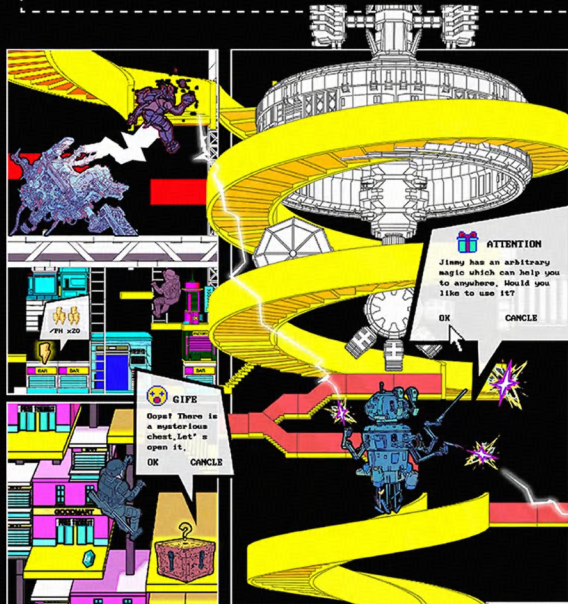

2 ABSOLUTE DOMINION OF THE
HYPERLAND CORPORATION

3 THE SECRET OF THE ACAPPELLA
ROBOTS

4 FINAL CHAPTER
LOVE AND FREE

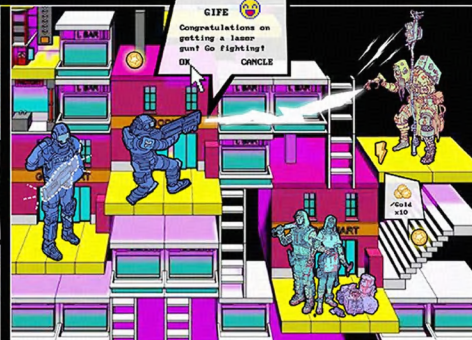

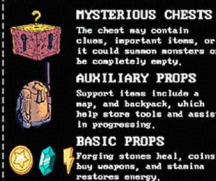

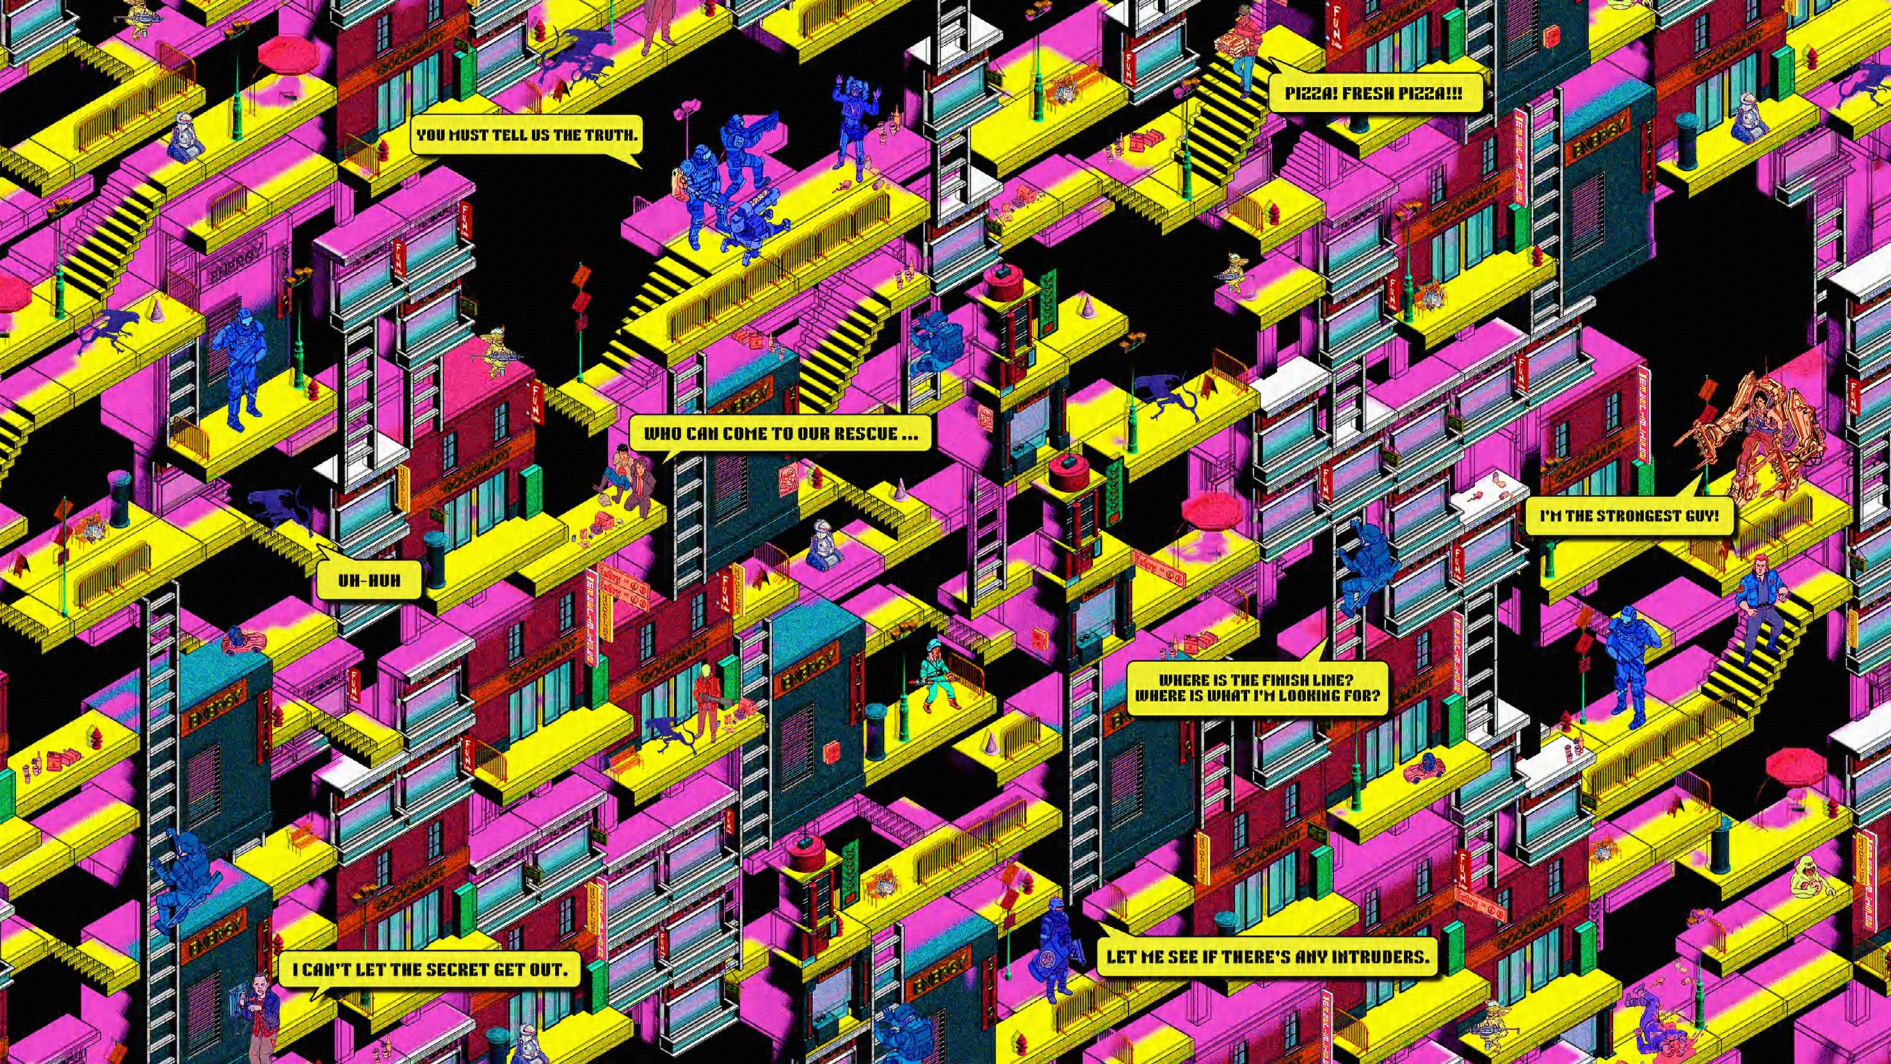

This is a cyberpunk-style platform game where each chapter's reward is a piece of the protagonist's memory puzzle. As the levels are completed, the truth behind the protagonist's amnesia is revealed. It's a story about friendship, courage, conspiracy, capitalism, and, most importantly, love and free will. Each chapter corresponds to a key character. By continuously climbing and searching for relevant items and clues, you'll have the opportunity to engage in in-depth conversations with the key characters.

港硕生存指南 分享3个邪修学习神器

26fall申请已经接近尾声了
相信很多uu已经收到了令人心动的offer
But!!!留学意味着换了一个完全不一样的环境
尤其是在语言上,对很多人来说是一个大挑战

作为一个典型的哑巴式英语选手
我刚开始的很不适应 也听不太懂[呃R][呃R]
于是就开始了疯狂自救。。
下面几个都是帮助我快速适应的宝藏app

1.LectMate

这个真的是宝藏听课神器,拯救了我每一节听不懂的课!
刚开始我有翻译羞耻症 后来发现其实很多同学上课都用同传
经过对比,我还是最喜欢LectMate,无论是什么语音语调都可以精准识别翻译,而且可以导出高精同传文件,对于上课听不懂星人真的是救星
后来我们每次tutorial的时候都会录音,并且用AI总结功能总结要点,不错过tutor说的每一个重点!

2.Podcasts

苹果自带的播客软件,页面设计简洁清爽
推荐播客都写在p6了,都是我的爱播..

从重度拖延症选手到拿下港大offer HK

不知不觉间在香港读研已经有半年啦,最近刷到很多uu分享自己的申请面试经历,好像一键让我回到了去年兵荒马乱的申请季,每天我都要搜索无数次各个院校下offer的时间...
不过还好结果是好的!在@SIAer艺术留学作品集的帮助下拿到了心仪学校的offer,并且就读体验感还不错^ ^

先说下没有特别大优势的bg
中流985建筑学 | gpa86 | 雅思7 | 2段实习

分享几点我个人的设计类申请经验=希望能给之后申请的朋友一些帮助

明确自己未来的职业方向,提前一年定好目标院校和专业。无论是想深耕本专业,还是要转行,都需要经过深思熟虑,可以去不同的院校的官网查一下各个项目将来会学什么课程,对未来就业是否有帮助等等。只有将来职业规划与学业相结合的才是有效留学,降低沉没成本。

申请一定要赶早,不要总觉得还来得及!申请ddl每年千变万化,特别是港大今年很多项目都开放了提前批,越早申请的同学就更有拿到offer的优势
像我这种拖延症大p人,没有什么时间观念,还好SIA老
